Secretary's Report

I have been quite busy with the Committee meetings and the events calendar.

You should all be getting Committee meeting minutes by email and then they are placed on the website. (Members confirmed that this is working as a way of keeping everyone informed)

As Jerry has said, we have had three Committee meetings and have spent quite a lot of time working on the formal procedural documents the club needs. They will come up under item 8 later in the agenda.

As to the calendar, I have been surprised at the number of invitations we have received to fly at other people's events. Many of these come through our Facebook page, so that is proving useful. Those, combined with a few of our own, gave us 12 events.

I have been sending out an updated version of the calendar as new events are planned or confirmed. (Members confirmed that this is also working as a way of keeping everyone informed) It will be helpful if people let the event coordinator know if they are going to attend each event.

Duncan is being a great strength in coordinating events but is not the club events coordinator. Anyone can coordinate an event, maybe one near to where they live, so please offer to do this.

I know that one important thing missing from the calendar is camping weekends or our own festivals. These need quite a lot more organisation and are something we will be thinking about in future.

Kate Hinton

Secretary
